

FILE 3 – FLOW CONTROL EXERCISES

Chapter: Flow Control – Exercises

Exercise 1 Write a Java program using if to check whether a number is positive.

Exercise 2 Write a Java program using if-else to check if a student passes (score $\geq$ 50).

Exercise 3 Write a Java program using nested if to assign grades:

- A: 80–100
- B: 65–79
- C: 50–64
- F: 0–49

Exercise 4 Rewrite Exercise 3 using switch-case.

Exercise 5 Write a Java program using the conditional operator (?:) to find the maximum of two numbers.
